Have been getting the E. O. quite regularly and believe me I am mighty glad to get the home news. I can read up on the home news. I enjoy the letters from Pendleton boys that are published in the E. O. very much and am glad to know that they have been so lucky.

The way Pendleton has supported its boys over here sure makes me proud of the old hometown and I will be some tickled boy when I get back to the dear old "Lad'er Buck" town again. I received the Round-Up pictures and the Happy Canyon money from the Patriotic League last night and was sure glad to get them. The pictures are a regular seven days wonder among the Belgians here.

Am back at my old job as a company runner again and it is a swell job now but the last few months of the war it was commonly known as the "suicide club." Cook house call has just gone so I must "partie pour monnaie, tout suite." Will finish this letter later.

"Monroe find," so here I am again. Nations are very good now so I may get fat yet before I get back. We are having some great football and baseball games here now. We play everyday, rain or shine. For this afternoon five games are to be played. We have football association and rugby, indoor and outdoor baseball and La crosse, so you see there are plenty of sports here. Am not on duty today so I will play ball this afternoon.

Well, dear brother, I must ring off for this time. Hoping to hear from you soon. I am with love to all.

Your brother,

JOE

#### CASUALTIES HEAVY IN BERLIN.
